

AA-6800

PROTEC® PLASTICS CLEANER

PRODUCT DESCRIPTION

Protec Plastics Cleaner is a special blend of cleaning solvents designed to be non-aggressive to unpainted plastic substrates.

It also contains an anti static additive which reduces the chance of static build up prior to painting.

PRODUCT

Protec Plastics Cleaner

AA-6800

PLASTICS PREPARATION

Thoroughly clean and sand the surface to be painted with AA-6788 *Protec* Auto Plastics Pre-Clean RFU using a medium grade STARTLINE® abrasive pad. Rinse with clean water and dry.

Re-clean the surface using a clean cloth dampened with AA-6800 *Protec* Plastics Cleaner, and a clean dry cloth to remove.

Allow 10 minutes before applying *Protec* Plas Stik Primer (AP-4880 or AP-4990). Please refer to Technical Data Sheet for further information.

All surfaces must be clean, dry and free from any contamination before priming. The use of a clean tack rag is recommended to remove dust from the surface before priming.

HEALTH AND SAFETY

Refer to Safety Data Sheets (SDS) for full Health and Safety details, as well as product can labels.

This product is for professional use only.
The information given in this sheet is for guidance only. Any person using the product without first making further inquiries as to the suitability of the product for the intended purpose does so at his or her own risk and we can accept no liability for the performance of the product or for any loss or damage (other than death or personal injury resulting from our negligence) arising out of such use. The information contained in this sheet is liable to modification from time to time in the light of experience and our policy of continuous product development.
Drying times quoted are average times at 25°C/77°F. Film thickness, humidity and shop temperature can all affect drying times.
